

## **JOB VACANCY: NETWORK ADMINISTRATOR**

**Company:** Tas-Noble Incorporated

**Industry:** Financial Technology / Self-Service Kiosk Solutions

**Location:** Monrovia, Liberia

**Employment Type:** Full-Time

**Reports To:** IT Manager

### **Position Summary**

Tas-Noble Incorporated is seeking a skilled and detail-oriented Network Administrator to manage, maintain, and secure the company's network infrastructure. The Network Administrator will ensure stable, secure, and high-performance connectivity for self-service kiosks, backend systems, and partner integrations.

This role is critical in supporting 24/7 fintech operations and ensuring uninterrupted network services.

### **Key Responsibilities**

- Install, configure, and maintain network devices including routers, switches, firewalls, and VPNs.
- Monitor network performance, availability, and security across all sites.
- Ensure reliable connectivity for self-service kiosks and core systems.
- Implement and manage network security controls and firewall policies.
- Troubleshoot network faults and respond promptly to outages.
- Perform routine network maintenance, upgrades, and configuration backups.
- Support system integrations with banks, mobile money operators, and service providers.
- Maintain network diagrams, documentation, and configuration records.
- Assist with disaster recovery and business continuity planning.
- Ensure compliance with IT policies and security standards.

### **Qualifications & Experience**

Bachelor's degree in Information Technology, Computer Science, Network Engineering, or a related field.

Minimum of three (3) to five (5) years' experience in network administration or a similar role.

Hands-on experience with enterprise networking and security equipment.

Experience in fintech, banking, telecoms, or high-availability environments is an added advantage.

### **Required Skills & Competencies**

- Strong knowledge of TCP/IP, routing, switching, VLANs, VPNs, and firewalls.
- Experience with network monitoring and troubleshooting tools.
- Good understanding of network security and cybersecurity best practices.
- Ability to work under pressure in a 24/7 operational environment.
- Strong documentation and communication skills.
- High level of integrity, accountability, and attention to detail.

### **What We Offer**

Competitive salary (commensurate with experience).

Opportunity to work in a fast-growing fintech company.

Professional growth and exposure to enterprise-grade network infrastructure.

### **How to Apply**

Interested and qualified candidates should submit a detailed CV/Resume and a cover letter outlining relevant experience to:
